

PANDORA ISN'T THE ONLY PLANET IN PERIL

Avatar "...is a Sierra Club commercial..."

– Nelle Engoron, *Salon.com*

What's the Sierra Club? A national grassroots organization whose volunteers and supporters nationwide are standing up to mountaintop removal coal mining and oil sands extraction, forces every bit as destructive to our Earth as the mechanized mining of unobtainium is to Pandora.

"... the Sierra Club has the best [anti-]coal campaign on the planet."

– Daniel Kessler, *Treehugger.com*
